abc Water Stain Remover

This extra thick cream removes hard water and mineral stains, soap scum, rust mildew stains and overspray. abc formula features jeweler's grade abrasive combined with a mild acid to effectively remove many deposit build-ups from most glass surfaces.

Metallic ladders

The most popular combination is 6' sections with a 4' center thrown in for good measure. Base sections are flared for added stability, and slip resistant material at bottom of the base comes standard. Remember to subtract 1' for each connection. For example: 4 6' sections = $4 \times 6' - 3 \times 1' = 21'$

Metallic Notice - Total Assembled Length of Sections Not To Exceed 21'
