## 50' Bulk Roll

1550 90.00 6+ 75.60

## Message From Sorbo:

Using imitation rubber in your Sorbo 3 x 4 adjustable Squeegee will not achieve the performance that is expected from Sorbo.

We recommend using only our brand name Sorbo rubber for optimal results.

Sorbo Products company, Inc.

# Will It Fit?

## Channels + Handles

Channels are divided into two main categories: Standard and Wide Body

Standard

Wide Body

The two are NOT usually compatible. Each require different handles.

## Clip Style + Clipless

Clip Style: Clips hold rubber in place.

Clipless: Teeth on handle grip rubber to hold it in place.

The two are NEVER compatible.

## Rubber

There are two types of rubber: Rounded and T-Shaped. Squeegees and Rubber on pages 2-4 are Rounded. Squeegees and Rubber on page 5 are T-Shaped.

Rounded

T-Shaped

The two are NEVER compatible.

## abc Triple Crown

### Incredible Durability

- Longer on purpose (tight sleeves blow out)
- Reinforced Ends

abcWindowSupply.com/abcSleeves

Tired of your ends blowing out within a few weeks? Our Sleeves feature extra material on inside ends, and extra stitching for increased durability.

Extra sticky tabs both inside and out.

# JBF 5" Champion Scraper

## The Perfect Size!

This scraper is 125 mm (5") wide with a 0.15 mm double edged stainless steel blade and protective cover. The ergonomic design makes the job of removing dirt, paint, sticky materials, tape remains, etc. from hard surfaces easy and effective. This scraper is slightly angled to make it even easier to remove stubborn dirt particles.

# Used Huck Towels

## #1 Towel Used By Professionals

We purchase the highest and most expensive grade of blue towel available.

**Step 1:** We hand-sort every towel. Some towels have holes, stains, rough textures, or other blemishes. These rejects are removed, but available for sale at a discount.

**Step 2:** Towels are weighed. We use true weight. The weight of the box and packaging is not included. When you order 5 lbs of towels, you get 5 lbs of towels.

**Step 3:** Towels are packaged into their various weights. Pictured above is a 5 lb bag.

**Step 4:** We move them to the pick/pull area and ship them to you! We have thousands of pounds in-stock!

## 6-7 Towels Per Pound

### Blue Towels

Weight	Code	Price	5+	20+
5 lbs	SR05	18.00

Hydrophile	SP2	3.00	2.43	2.16
HoneyComb	FM1	4.50	3.96	3.60

### Bleached vs Unbleached

We order sea sponges by the thousands and, when possible, we order unbleached sponges. Most diving companies bleach their sponges lighter for the retail market because they look "prettier". This process weakens and shortens the life of sea sponges.

**Metallic Ladders**

The most popular combination is 6' Sections with a 4' center thrown in for good measure. Base sections are flared for added stability, and slip resistant material at bottom of the base comes standard. Remember to subtract 1' for each connection. For example: 4 6' sections = 4x6' - 3x1' = 21' *Metallic Notice - Total Assembled Length of Sections Not To Exceed 21'*

# abc Modular

## Light // Stiff

Coming in at under 1 lb/section, this pole is the lightest, stiffest modular pole on the market. Sections simply fit together end-to-end. No screwing involved. Tubing can run inside or outside of pole. 60' pole is less than 6 lbs (without brush or gooseneck)!

Complete pole includes:

- Angle adaptor + double bend goose neck
- Double Jetted Brush
- Carrying Case
- Can of PTFE Spray

### Certifications

Society for Professional Rope Access Technicians (SPRAT): Safe Practices for Rope Access Work recommends carabiners have a minimum strength of 22kN (5,000 lbs).

In the absence of more applicable rope access standards, **ANSI Z359.1** is a standard related to fall protection that OSHA often uses. If you are not using **ANSI Z359.1** compliant carabiners, be prepared to justify that choice to OSHA inspectors.

### Rope Rider

- » Meets NFPA, ANSI, and CALOSHA
- » Aluminum Alloy
- » 3 lbs
- » Manufacturer recommends 1/2" New England Safety Blue or New England KMIII 7/16" or 1/2" Rope

626000 // 400.00 // 6+ 320.00 // 12+ 296.00

### Miller Descent Device

- » 1.7 lbs
- » Use with 1/2" Rope
- » Works well with 1/2" NE Safety Blue or Solid Braided Nylon Rope

8113 // 285.00 // 6+ 222.30 // 12+ 210.90

### Sky Genie Descent Device

- » 1.3 lbs
- » Use with 1/2" Rope
- » Training required before use: [descentcontrolinc.com/training-manuals](http://descentcontrolinc.com/training-manuals)

14GO // 200.00 // 6+ 170.00 // 12+ 160.00 // 24+ 140.00

### Petzl Self Braking I'D

One of the simplest descenders on the market. If you load your rope incorrectly, the device locks up preventing use. If you panic and pull the lever too hard, the device locks up, stopping descent. The Petzl I'D is unmatched in ease of use and simplicity of set-up. Carabiner, rope, and chair sold separately.

- » Self Braking
- » Anti-Panic Handle
- » Aluminum plate // SS Cam // Polyamide Handle

**All About Harnesses****Attachment Points****F**

**Front:** Commonly used for attaching fall arrest during high rise cleaning. Allows for easier self-rescue.

**B**

**Back:** Commonly used for attaching fall arrest during high rise cleaning or other work at height (e.g. lifts).

**S**

**Side:** Used in specialty applications for positioning.

**V**

**Ventral (waist):** Commonly used for attachment to main line, especially in rope access where a chair isn't in use.

Note that some harnesses also have shoulder attachments. These are used for confined space applications and do not normally apply to high rise cleaning.

**Choosing A Harness**

**Application:** Consider what you will be using your harness for. If you are working on a roof or in a lift, you can get away with a simple fall protection harness (back D only). For high rise window cleaning and rope access, you'll want to get a comfortable harness with multiple attachment points.

**Comfort:** Spending a long time in the air can be uncomfortable, especially with a cheap harness. Nicer harnesses have more padding, making them more comfortable. If you spend much time in the air, you won't regret spending the money.

**Ease of Donning:** A harness made of webbing can be confusing to put on. It's difficult to tell which side is up, where your arms go, etc. Harnesses with more structure are easier to put on and adjust.

**F**
